

WHAT DOES BEHAVIORAL ENRICHMENT LOOK LIKE? TOYS/NOVEL ITEMS

Toys and new novel items is an enrichment activity that is pretty fun and easy.

Visitors may observe boomer balls, bowling balls or (empty!) beer kegs being played with by the lions, or baby and toddler toys being utilized by the small primates. The rhino enjoys banging on a barrel that hangs in a barn stall. Sometimes the zookeeper puts a little scent on toy items to encourage the animal to play with it.
